# About us

## We are Meshllo

### Crafting Inspiring & Transformative Digital Experiences

With over 15 years of experience in transforming business in the digital realm, Meshllo was founded with the core mission of solving problems and empowering people through technology. We started with just a 4 person team, but our dedication to creating exceptional software solutions fueled our growth to having a team of 150+ brilliant minds crafting exceptional software products and micro service-enabled platforms for businesses of all sizes. We have worked with various organizations over the globe spanning over US, Canada, UAE, and Australia. Our vision is to become the fastest digital transformation and innovation partner, building a global network of talent to create a lasting positive impact.

IT Consulting

# Business Model

## Fixed Quote Project

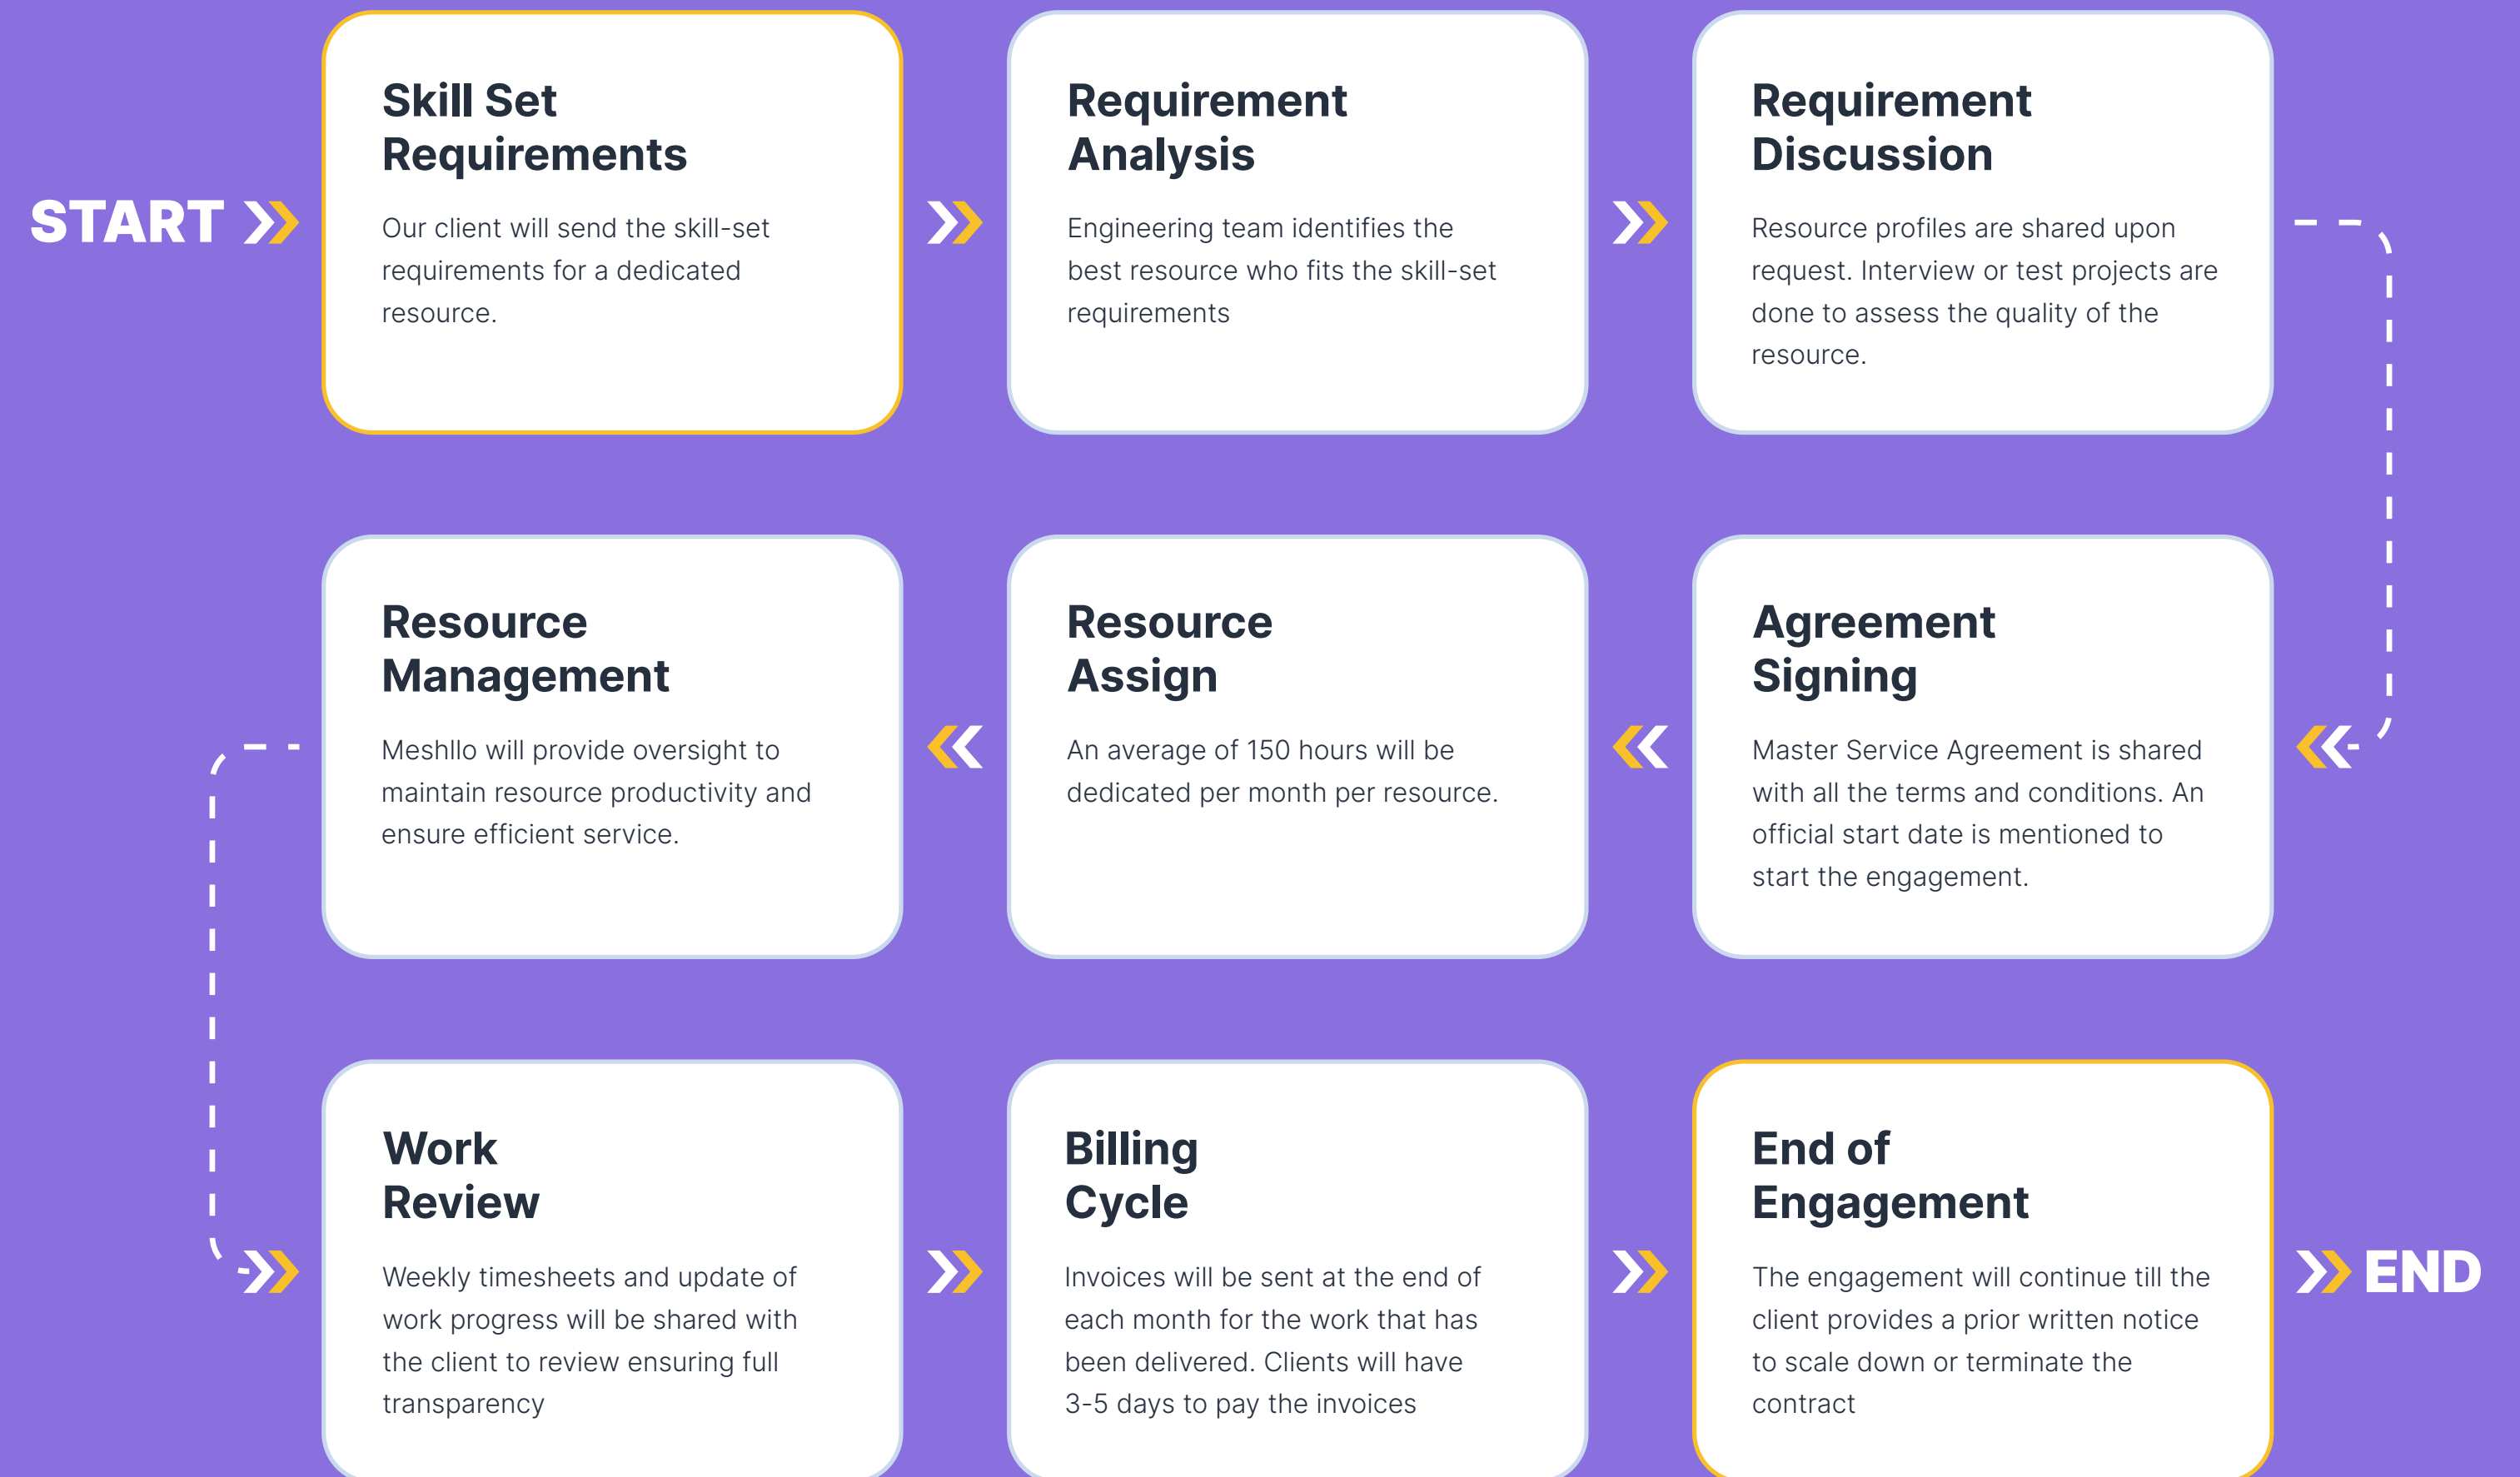

- Free consultation.
- Detailed project plan with a fixed-cost pricing model.
- Quality Assurance & Testing is included.
- End-to-end project solution with source code handover.

# Business Model

## Dedicated Resource

- Get to choose from a 1000+ pre-vetted talent pool.
- We will match the skill-set requirements & qualifications required for the resource.
- There will be oversight from a development & project manager to assist the resource.
- Flat monthly rate per resource, invoiced at the end of each month.
- This model allows you to have dedicated remote resources/teams.

# Intellectual Property Rights to Intellectual Property

1. All source codes, legal documents, and any other formal documentation created for or provided to us by the client remain the property of the client.
2. All materials associated with a project are given to the client once it has been completed.
3. No information or materials will be shared without the client's permission in writing.
4. As an extended team, we work similar to a remote employee, therefore we do not have any ownership rights over the work done for our clients

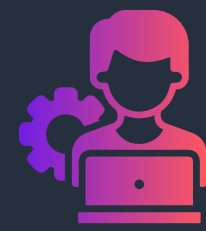

# Why Partner With Meshllo?
